

A bike tour of Europe by two teenagers

Elio Dauch / Justin POUX
europa2velos@gmail.com

**From July 2020 to September 2021
a bike trip through Europe: 14,600 km, 26 countries,
about ecological transition and European citizenship, to meet innovative projects,
in partnership with French schools.**

We are two high school students, aged 17 and 18, from Aveyron, a department located in the South of France, and we do this bike tour of Europe after the baccalaureate.

Focused on ecological transition and European citizenship, we visit green projects, initiated locally in Europe, and meet people from different countries that we cross.

We also want to raise awareness among pupils and students in our area, and all types of people interested in our project, about the bright side of Europe.

We work with elementary and high schools, to enable students to follow our journey, discovering Europe with us while studying.

Our journey is the subject of a documentary film, directed by Jean-Pierre Sicard and produced by the company Ad Libitum.

"I support Justin Poux and Elio Dauch's cycling tour of Europe project"

Nicolas Hulot, Former Minister of Ecology, Sustainable Development and Energy, French Government
